Optimal

Founded in 1998 in Istanbul Turkey, our company Optimal Saglik Ltd. Sti. started its activities in the medical sector as an importer and distributor of ophthalmic devices and instruments representing distinguished European and American manufacturers.

Within its first decade of operation, we decided to expand and diversify our activity fields to become additionally a major manufacturer of disposable sterile surgical drapes, gowns, accessories and packs. Because our company distributes various ophthalmic products, we are more specialized in the manufacturing of ophthalmic customized packs.

Since 2007, we have produced disposable surgical drapes, gowns, accessories and packs according to the requirements of 93/42/EEC Medical Device Directive and in accordance with ISO 13485:2003 standards. In 2012, we started also manufacturing of disposable microsurgical instruments. All our products are EC certificated.

Today, all its 65 employees in the departments of manufacturing, marketing & sale, quality control, R&D, international trade, accounting and logistics strongly bond with the company's mission. All business and manufacturing activities are conducted in our manufacturing facility located in Istanbul, economic capital of Turkey.

OPTİMAL SAĞLIK ÜRÜNLERİ SANAYİ VE DIŞ TİCARET LTD. ŞTİ.
